Warning to #ProtectYourPension

Savers and those reaching retirement age are being warned to protect their pensions and look out for criminals trying to catch people out of their life savings, with [Action Fraud](#) revealing a total annual loss of £17,567,249. This equates to roughly £48,129 lost to this type of fraud per day in 2024.

Ignore unsolicited calls about your pension: cold calling about pensions is illegal and likely a sign of a scam.

Investment opportunities: don't be rushed into making an investment. Remember, legitimate organisations will never pressure you into investing on the spot.

Remember to Stop! Think Fraud and find more information on how to protect yourself from fraud here: [Stop! Think Fraud - How to stay safe from scams](#)
